BASIC EKG: ROCE 5202

Course Length: 15 hours

CEUs Awarded: 1.5 CEUs

Endorsements: This course is sponsored by Tennessee State University, an accredited physical therapy educational institution, for Continuing Education Units.

Overview:

This course is for nurses and other healthcare professionals who care for patients with cardiac disease and must be able to interpret EKG rhythm strips in a variety of settings, ranging from emergency situations to routine dysrhythmia analysis.

The content that this course covers is needed in all acute care emergency settings by a variety of healthcare professionals such as nurses, paramedics, EMTs, etc. The information contained in this course is not provided in detail in most nursing programs and only emergency dysrhythmia is stressed in paramedic and EMT curricula. Having a basic understanding of EKG dysrhythmia is a prerequisite for critical care courses and the American Heart Association's Advanced Life Support course which is required by many healthcare facilities for specific healthcare roles that respond to emergencies and care for critically ill patients.

Target Audience:

This course is designed for medical laboratory scientists and medical laboratory technicians. It serves as a solid review or enhancement tool for laboratory professionals.

Career Outlook and Benefits:

According to the Bureau of Labor Statistics, Tennessee Department of Labor, the median income for laboratory technicians is \$55,750.

Hardware & Software Requirements:

You will need the following: Computer with Internet access, the ability to use Microsoft Word, web navigation skills and email skills.

Textbook Requirements:

No textbooks are required. All reading and reference materials are supplied in the course.

Course Dates:

Course can be taken any time between September 1 - December 31, 2012

Registration Dates:

Open enrollment from September 1 - December 31, 2012

Course Fee:

\$132

Payment:

Cash, Mastercard or Visa Credit Card, Check, Money Orders accepted
